FOR IMMEDIATE RELEASE

**dcs plus Joins Radius Travel Global Technology Program
to Provide Intelligent Travel Solutions to The Network's Members**

Radius Travel, the global travel management company, and dcs plus, a leading travel technology provider, have concluded a strategic partnership to drive innovation, speed, and efficiency and to better serve and support the travel agencies that are part of the Radius global network.

dcs plus joins the Radius Travel Global Technology Program, a newly formed partnership, with some of the business travel industry's most innovative technology and service vendors.

"The Global Technology Program provides dcs plus, Radius Travel, and its partner agencies with the ability to grow via economies of scale", said Nicole Wilcock, Senior Director, Global Implementation, Client Technology & Product at Radius Travel. "By leveraging dcs plus' unique platform, partner agencies can standardize their processes, reduce implementation time, and increase efficiencies when supporting our multi-national corporate clients."

"We are delighted to be part of this great program and feel very honored to have the chance to bring value to Radius members through solutions that will drive superior performance." said Cristian Dinca, CEO and Founder of dcs plus.

Members of the Radius Travel network will have access to dcs plus's complete travel technology stack, consisting of enterprise-grade solutions addressing the needs of travel management companies with:

- TINA for mid-back office management
- IRIX for travel content aggregation and distribution
- CSBT – the corporate self-booking tool
- TRIP – the online B2C system
- TravList – the itinerary management mobile app

"dcs plus brings its industry recognized expertise, reputation, and know-how to the Radius Global Technology Program," continued Dinca. "Together, we'll set the focus on delivering client-centric technology."

"Radius Travel is thrilled to partner with the industry's leading-edge tech providers, including dcs plus, as part of our Global Technology Program," said Wilcock. "Our partners will provide our clients, and our agency network, with global access to innovative technologies and service solutions to provide a custom technology stack for each of our clients."
